

# Kishan Singh

Frontend Developer

## Summary

Hardworking and team-oriented Developer with 1 years of Service based experience in Dynamic, Website Management, Social, and E-Commerce. Developing Web applications using different cutting-edge Technologies i.e. Next Js, Node Js, Reactjs etc.

## Projects

### WebApplications

- **Unthread**

I developed an innovative admin dashboard designed to empower website administrators with dynamic control over website themes and content. This robust platform enables seamless modification of the website's appearance and information through a user-friendly interface.

**TechStack:** Nextjs, TypeScript, Redux.

- **Friend Verifier**

Friend Verifier, a robust web application for person verification in the United States. Users can search for individuals using their name, address, email, or phone number, generating detailed reports with information such as criminal records, recent addresses, bankruptcy status, and potential sex offender cases.

**TechStack:** React JS, Redux.

- **Zimli**

Zimli is a comprehensive shopping app with an integrated admin dashboard for efficient order and inventory management. Users enjoy a seamless shopping experience, while the admin dashboard empowers efficient oversight of orders, returns, and inventory control. The platform also features reseller integration for catalogue management, showcasing my proficiency in developing user-friendly e-commerce solutions.

**TechStack:** Nextjs, Redux.

- **CNC Locator**

CNC Locator is an Electron app utilising IndexedDB for efficient local data retrieval, offering a user-friendly interface, search functionality, user card generation, and contact-saving barcodes for enhanced convenience and offline accessibility.

**TechStack:** Electronjs, Nextjs.

- **Karuna**

It is a dynamic Electron app for medical research presentations, featuring interactive stages, media players, a user-friendly data form, and an engaging quiz. Its offline data storage ensures accessibility in varied presentation settings, highlighting its versatility for immersive research experiences.

**TechStack:** Electronjs, Nextjs.

## **Certifications & Education**

- 2020 Bachelors of Computer Application, DDU Gorakhpur University.
- SSC – U.P. State Board
